

KAMA'OKŪ KALAELOA

Operated by

Planned, designed, and built from a community-centered concept, this new site offers a fresh new approach to housing our homeless neighbors with aloha and inclusion. These planned communities consist of 36 tiny permanent, supportive housing units known as kauhales.

Kama'okū Kalaeloa is an important resource to help individuals transition from persistent homelessness into a transformative and supportive community that fosters a sense of ohana and ownership among residents.
